Objective

Full-time position in software development, and work with experienced co-workers.

Education

University of Illinois, Urbana-Champaign, IL – College of Engineering

    GPA (C.S. Courses): out of 4.00.   B.S. Computer Science

    GPA (Overall): out of 4.00.   Expected: 05/2015 (Senior)

Work Experience

Alcatel-Lucent – Software Development Internship   06/2014 – 08/2014 (Naperville, IL)

- Gained experience about the Software Development Life Cycle by creating a dynamic web application utilizing J2EE, JBoss EAP, Eclipse IDE, database queries, and more. Improved current subscription management system from laborious, error-prone 3-5 minute tasks to about 30 second tasks.
- Exposure to all the roles involved in a software application development project including positions like a System Engineer, Developer, Tester, and Project Manager.

M. Geller, Ltd. – Internship   05/2012 – 01/2013 (Chicago, IL)

- Managed a project for creating custom labels with descriptive meaning and layout for a product. The labels were used to present the product in a showcase event for potential clients.
- Improved company organization by filing and updating inventory allowing the company to accurately measure their income growth as well as account for losses.

Activities / Projects

Latino-a Computer Science Club – Co-President   04/2014 – Present (Champaign, IL)

- Managed and organized tech talks, private presentations, and extra curricular events for club members.
- Gained experience communicating with corporate contacts and overseeing events to completion.
- Worked as a group with the executive board to provide great opportunities for any and all Computer Science student.
- Collaborate with SHPE and MEP members to reach out to new students and potential future members.

iRobotics – Jerry Sanders Creative Design Competition   11/2013 – Present (Champaign, IL)

- Gained knowledge about Arduino microcontrollers, drive trains for robots, and different APIs for Xbox controllers.
- Collaborated with colleagues to determine our end goals and objectives for the competition. We were the only team from UIUC to reach the Quarter Finals.

Alcatel-Lucent – Volunteer Events   06/2014 – 08/2014 (Naperville, IL)

- Organized and collaborated with other interns to provide events such as the Intern Potluck and the annual Interns vs. Employees Softball Game.

Skills/Qualifications

Technical Skills:

- Java, and C++ (proficient). C (competent). J2EE, JSF, HTML, iOS (knowledgeable).
- Operating Systems: Microsoft Windows, Linux, and Macintosh OS.
- IDE, API, Object-Oriented, Parallel programming experience.

Nontechnical Skills:

- Hard working, punctual, and dedicated with great ingenuity and leadership skill.
- Enjoy collaborating and working through a difficult problem with team members.
- Bilingual (Spanish).
